Medical Experience

Dr. Nadim Ayoub is a genito-urinary surgeon, Diplomate of the European Board of Urology, specializing in Laparoscopic and Robotic urologic surgery. He also holds a fellowship in Female urology and in Neuro-urology.

After completing his training in France at la Pitié-Salpêtrière Hospital (Paris) and Saint-Augustin Clinic (Bordeaux), he has been practicing in Beirut, Lebanon since 2005 and is currently Head of the Urology Unit at Clemenceau Medical Center.

He is a skilled and dedicated surgeon and an expert in minimal invasive surgery through laparoscopic and robotic techniques. He holds a firm belief that laparoscopic and robotic surgeries offer the advantage of minimal pain, fewer postoperative complications and shorter recovery time, especially in the treatment of genito-urinary cancers.
