

Dr. Nicolas Zouain

Director of Radiation Oncology Department

Clemenceau Medical Center

Department of Radiation Oncology

Experience

Director of Radiation Oncology, Department of Radiation Oncology at Clemenceau Medical Center

Program Director and Assistant Professor of the Department of Radiation Oncology, Department of Radiation Oncology, Faculty of Medicine, American University of Beirut Medical Center, Beirut, Lebanon

Assistant Professor of Radiation Oncology, Department of Radiation Oncology, University of Central Florida, College of

Medicine, Orlando, Florida

Education

2006 American Board Certification in Radiation Oncology

2001 American Board Certification in Internal Medicine

1999 French “University Diploma” in Forensic Medicine: Saint-Joseph University, Beirut, Lebanon and
CHU Rouen, France.

1998 Medical Doctor: Saint-Joseph University, Beirut, Lebanon.

Academic Experience & Services

2014 Faculty Staff at the Department of Radiation Oncology at the Florida Hospital, Orlando, Florida

2009 - 2013 Radiation Oncology Consultant at the North Collier Hospital Health Care System (Mayo
Clinic

affiliate), Naples, Florida

2009 - 2014 Radiation Oncology Consultant at the Physicians Regional Healthcare System, Naples,
Florida

2009 - 2014 Radiation Oncology Consultant at Premiere Oncology, Naples, Florida

2008 - 2009 Clinical Assistant Professor of Radiation Oncology, Department of Internal Medicine, University of

North Dakota, School of Medicine and Health Sciences, Fargo, North Dakota

2005 - 2009 Faculty Staff at the Department of Radiation Oncology, Roger Maris Cancer Center, Sanford Health System, Fargo, North Dakota

Areas of Interest

☑ 3D Conformal technique.

☑ Orthovoltage superficial treatment.

☑ Electron Therapy.

☑ Low Dose Rate Prostate seeds implant.

☑ Intensity Modulated Radiation Therapy of different body sites.

☑ RapidArc® IMRT of different body sites.

☑ High Dose Brachytherapy and Interstitial implants of Breast.

☑ High Dose Brachytherapy and Interstitial implants of Prostate.

☑ Single and Multi lumen Mammosite® and Contoura® High Dose Rate Brachytherapy of the Breast.

☑ High Dose Brachytherapy of the uterus, cervix, vaginal cavity, esophagus, rectum, biliary duct, bronchus, skin...

☑ Brain Radiosurgery: frame and frameless technique.

☑ Image Guided Radiation Therapy: OBI, Calypso® and CBCT.

☑ Stereotactic Body Radiation Therapy.

☑ TrueBeam STx.

☑ I am the first radiation oncologist worldwide to use the new Varian® Capri® High Dose rate applicator for the

treatment of rectal cancer: April 2011.

followed by brachytherapy". Case Rep Oncology: 2009;2:97-102.

Abstract

1. Sturgeon J, Zouain N: "A Survey of Androgen Deprivation Patterns of Practice in Prostate Cancer by Radiation Oncologists in the United States". Presented as an Abstract and Poster at the ASTRO Annual meeting in 2011 in Miami,

Florida.

2. M.R McCurdy, T. Guerrero, N. Zouain, V. Johnson: "Radiation Pneumonitis: Pulmonary Metabolic Response to Radiation

in Lung Cancer Patients" . Presented as an Abstract and Poster at the ASTRO Annual meeting 2009 in Chicago, Illinois.

3. "Case report of vaginal primary cancer treated with radiation treatment IMRT and HDR Brachytherapy and concomitant

chemotherapy": a presentation at the annual meeting of University of North Dakota, School of Medicine. T

4. "The role of autopsy as quality improvement and teaching tool": American College of Physician national meeting of 1999.

5. "The Minimally Invasive Autopsy": Richmond Medical Community and American College of Physician local meeting, New

York 2000.

Review

Practice guidelines review for the treatment of Non-Small Cell Lung Cancer.

"Treatment of Non-Small Lung Cancer with combined radiation-gemcitabine": a literature review for Lilly® pharmaceutical:

2003.

Thesis

1. Thesis: "Gunshot wounds to the head": Mentor: Prof. Proust; New York, 1999. Thesis presented for the Forensic Medicine

Diploma, in Rouen, France.

2. Thesis: "Cutaneous melanoma": Mentor: Prof. Farran; Beirut, 1997. Thesis presented for the Doctor of Medicine diploma

in Beirut, Lebanon.

Research Awards

1. Frank Low research award from the University of North Dakota, School of Medicine: 2008.

2. Recipient of a Research Award for the research project of the "Minimally Invasive Autopsy" from the Staten Island

University Hospital, New York: 2002.

3. Recipient of a Certificate of Achievement from the American Medical Association: 2001.

4. Research award at the American College of Physician national meeting for "The role of the autopsy as quality

improvement and teaching tool":2000.
